FOR ADDRESS ONLY

The Long-Tailed Tit is a common resident south of the Clyde. The nest is the best built in Britain.

The Hoopoe is a peculiar looking but handsome bird. Its call is "hoopoe" or rather hoop, hoop ho!"

The Martin arrives here in April and remains till December. Its nest of mud is built under the eaves of a roof, and on walls and cliffs.

The Siskin is a winter visitor. It is imported in cages in large numbers from the Continent.
